Behaviour Policy

Willunga Primary School provides a safe, inclusive, and supportive learning environment. Our behaviour policy is designed to embrace the recent guidelines from the education department and positive behaviour support (PBS).

PBS is an approach to children's behaviour that is built on the principles that positive behaviour can be learnt and that environments can be changed to support effective teaching and learning for every child. PBS involves a range of systems and practice elements at universal, targeted and intensive levels.

For students: BEHAVIOUR = COMMUNICATION

For teachers, staff, and parents: BEHAVIOUR = LEARNING OPPORTUNITY

The purpose of the behaviour support policy is to:

- ensure effective, consistent, and fair behaviour support for children and young people across education, and care services in the department
- help children and young people to be safely included and participate in learning in a positive way that respects other students and staff
- develop the personal and social capability of children and young people to understand and exercise their rights and responsibilities so that they can fully contribute in their learning environments; and to their wider community.

Children and young people's behaviours span a continuum including:

- **positive**, inclusive and respectful behaviours
- **low-level**, developmentally-appropriate transgressions that test the boundaries of established rules, standards, and norms. These behaviours are usually simple to redirect and minimise through universal behaviour support strategies for all children and young people at a classroom and school level
- **challenging** behaviours that raise greater concern due to their severity, frequency or duration and require more persistent guidance and support to minimise. Behavioural responses include targeted interventions for the individual children and young people involved in addition to universal strategies
- **complex** and unsafe behaviours that are severe, of high frequency or extended duration, or are unsafe for a child or young person and those around them.

Behaviours at this end of the continuum require intensive and individualised interventions in addition to targeted and universal strategies.

At Willunga Primary School we focus on a learning environment that is:

- Safe
- Inclusive
- Conducive to learning

Willunga Primary School is a place where:

- violent, dangerous behaviour, harassment and bullying are unacceptable
- people are treated appropriately and with respect
- positive behaviour is acknowledged and rewarded
- property is respected
- natural justice is undertaken
- a restorative approach and logical consequences are used as best practice
- appropriate role modelling is available to students

RESET room

The RESET room is **not** for behaviour. The purpose is to rebalance nervous systems so that students are present in the moment and in the best frame of mind to learn.

Targeted students will have scheduled RESET room times. Here they will learn strategies to help them get ready to learn when they are in the different zones.

Teachers and students can send students to the RESET room without a booked in time when they notice the first signs of heightened behaviour before it has reached an inappropriate level.

Teachers/ students will need to use the referral form.
