

WPS School Improvement Plan 2025

Our **2025 School Improvement Plan** focuses on **high-impact teaching strategies** including **Learner Agency, data-informed decision-making, and professional learning** to enhance student achievement in **Reading, Writing, and Mathematics**.

Reading: Phonics (R-2) & Fluency (3-6)	Writing: Spelling & Morphology (3-6)	Mathematics: Place Value & Multiplicative Thinking
<p>What we aim to achieve:</p> <ul style="list-style-type: none"> Ensure all students become confident readers by improving their ability to decode words, read smoothly, and understand what they read. <p>How we will do this:</p> <ul style="list-style-type: none"> Teachers will use structured phonics programs (R-2) and fluency routines (3-6) to support students. Regular tracking of student progress using DIBELS assessments. Extra support programs like MacqLit and Reading Doctor for students who need more help. Teachers will receive specialist training and coaching to improve reading instruction. <p>What success looks like:</p> <ul style="list-style-type: none"> Students will take part in structured reading routines, track their progress, and apply phonics skills in daily reading. Teachers will consistently use high-quality reading strategies and adjust lessons based on student progress. 	<p>What we aim to achieve:</p> <ul style="list-style-type: none"> Help students become better spellers by explicitly teaching spelling patterns and word structures (morphology). Ensure students apply spelling knowledge in their writing. <p>How we will do this:</p> <ul style="list-style-type: none"> Teachers will follow a consistent spelling program based on the DfE Scope & Sequence. Staff will receive training and coaching to support high-quality spelling instruction. Regular spelling checks and writing assessments to track progress. <p>What success looks like:</p> <ul style="list-style-type: none"> Students will learn and apply spelling rules in their writing and use rich vocabulary. Teachers will plan and deliver structured spelling lessons and tailor support based on student needs. 	<p>What we aim to achieve:</p> <ul style="list-style-type: none"> Strengthen students' core number skills, making sure they understand how numbers work and apply them in real-world situations. Develop students' ability to think critically and solve problems using different strategies. <p>How we will do this:</p> <ul style="list-style-type: none"> Teachers will attend specialist training with experts Dr Paul Swan and Dr Ange Rogers to improve math instruction. Lessons will focus on hands-on learning, number talks, and mastery-based approaches to deepen understanding. Students will be regularly assessed using PAT-M and PVAT assessments to ensure progress. <p>What success looks like:</p> <ul style="list-style-type: none"> Students will confidently use place value and multiplication strategies, explain their thinking, and solve problems in different ways. Teachers will design engaging lessons, track student progress, and ensure all students develop strong number sense
