Willunga Primary School Sun Protection policy 2024

This policy applies to all school activities and events on and off-site.

Rationale

A balance of ultraviolet (UV) radiation exposure is important for health. Too much of the sun's UV radiation can cause sunburn, skin and eye damage and skin cancer. Sun exposure during childhood and adolescence is a major factor in determining future skin cancer risk.

Too little UV radiation from the sun can lead to low vitamin D levels. Vitamin D is essential for healthy bones and muscles, and for general health. Sensible sun protection when UV is 3 and above does not put people at risk of vitamin D deficiency.

Objectives

This sun protection policy has been developed to:

- encourage the entire school community to use a combination of sun protection measures whenever the UV Index reaches 3 and above.
- work towards a safe school environment that provides shade for students, staff, and the school community at appropriate times.
- assist students to be responsible for their own sun protection.
- ensure families and new staff are informed of the school's sun protection policy.

Procedures

Policy implementation times

Staff are encouraged to check the daily sun protection times each morning for our location using the free [SunSmart Global UV app](#), [SunSmart widget](#), myuv.com.au or the [Bureau of Meteorology website](#) to support the implementation of sun protection at the school.

The school uses a combination of sun protection measures for all outdoor activities during terms 1, 3 and 4 (or 1 August to 30 April) and whenever UV levels reach 3 and above at other times.

Scheduling

A combination of sun protection measures are considered when planning outdoor activities such as camps, excursions, sporting activities and water-based activities. Care is taken during the peak UV radiation times, and outdoor activities are scheduled outside of these times, where possible or in the shade.

Government of South Australia
Department for Education

Sun protection measures

1. Hats

All students and staff are required to wear a broad-brimmed, legionnaire or bucket hat which protects the face, ears, and neck. Baseball caps are not acceptable.

2. Clothing

Appropriate sun protective clothing is included in the school uniform/dress code and sports uniform. Clothing made of a closely woven material including tops with collars or higher necklines and elbow-length sleeves and longer-style skirts, dresses and shorts are recommended. Rash tops or t-shirts over bathers are recommended for outdoor swimming activities.

3. Sunscreen

SPF 50+ broad-spectrum, water-resistant sunscreen is supplied by the school for student and staff use. Families and staff are asked to supply their own SPF 50+ broad-spectrum, water-resistant sunscreen.

- Families with children who have sensitive skin are asked to provide a suitable SPF 50+ broad-spectrum water-resistant sunscreen for their child's use.
- Families with children who are concerned about vitamin D requirements are encouraged to speak to their GP or paediatrician.
- Students are encouraged to apply sunscreen before or upon arriving at school.
- Time is provided for students to apply sunscreen before going outdoors.
- Students are reminded to apply sunscreen before going outdoors.
- Sunscreen is applied at least 20 minutes before going outdoors.
- Sunscreen is re-applied every 2 hours when remaining or returning outdoors.
- Sunscreen is encouraged to be re-applied immediately after sweating, water-based activities, towel drying or being washed off.

4. Shade

- Staff are to use available areas of shade for outdoor activities as much as possible and actively encourage students to play in the shade.
- Students who are not wearing a SunSmart hat or appropriate clothing are directed to play in the shaded area adjacent to the front office.
- A shade audit is conducted regularly to determine the current availability and quality of shade.
- The school Governing Council ensures there are sufficient numbers of shelters, portable shade structures and trees providing shade in the school grounds, particularly in areas where students frequent e.g. canteen, outdoor lesson areas and popular play areas.
- In consultation with the school Governing Council, shade provision is considered in plans for future buildings and grounds.

Together we thrive

6. Staff WH&S and role modelling

For work health and safety and role modelling, when the UV is 3 and above, staff are required to practice SunSmart behaviours including:

- wearing sun protective hats, clothing, and sunglasses when outside
- applying SPF 50+ broad-spectrum, water-resistant sunscreen
- seeking shade whenever possible.

Families and visitors are encouraged to use a combination of sun protection measures when participating in or attending outdoor school activities.

7. Learning and development

Sun protection education is incorporated into the curriculum for all year levels (or) at least every second year.

8. Policy promotion

Sun protection information and the sun protection policy is promoted to the whole school community through newsletters, school homepage, parent meetings, staff meetings, school assemblies, student, and teacher activities and in student enrolment packs.

Policy review

The school will review the policy regularly (at least every three years) and revise the policy when required.

The school will notify any relevant stakeholders should any significant policy updates be made (e.g., families, staff, Cancer Council SA).

Ratified September 2024

Date of next policy review: October 2027
